Please find below and/or attached an Office communication concerning this application or proceeding.

Application No. Office Action Summary - The MAILING DATE of this communication appears on the cover sheet with the correspondence address - Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE of THIS COMMUNICATION Latensions of fire may be available under the previous of 3/ CFR 1 13(6). In no work, however, may a nerby be timely filed selected for the property of the provision of 3/ CFR 1 13(6). In no work, however, may a nerby be timely filed select SIG (AUCHTS from the mailing date of this communication) If the MAILING DATE of THIS COMMUNICATION Latensions of fire may be available under the previous of 3/ CFR 1 13(6). In no work, however, may a nerby be timely filed select SIG (AUCHTS from the mailing date of this communication) If the property of the province of t			\sim \sim				
## Examiner Thomas J Joseph 2174	·	Application No.	Applicant(s)				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. If the period for reply acceled to be maining date of this communication. If the period for reply acceled above is less than thiny (50) eays, a reply within the stablatory minimum of thiny (01) days will be considered streety. If the period for reply acceled above is less than thiny (50) eays, a reply within the stablatory minimum of thiny (01) days will be considered streety. If the period for reply acceled above is less than thiny (50) eays, a reply within the stablatory minimum of thiny (01) days will be considered streety. If the period for reply acceled the days, the manufaction is than thiny (50) eays, a reply within the stablatory minimum of thiny (01) days will be considered streety. If the period for reply acceled the days than thiny (50) eays, a reply within the stablatory minimum of thiny (01) days will be considered streety. If the period for reply acceled above, the manufaction and the streety of the period of the communication. Any reply reclied by the Office later than these months after the mailing date of this communication, even if timely flied, may reduce any search of the communication is communication. Status Status Status This action is FINAL. 2b) This action is non-final. 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merrits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s)		09/772,606	FERNANDEZ ET AL.				
The MALING DATE of this communication appears on the cover sheet with the correspondence address − Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. Extensive or them may be available under the approximent of 37 CFR 1.78(6). In one event, however, may a raply be simily filed If the period for reply appecified above, the maximum of 37 CFR 1.78(6). In one event, however, may a raply be simily filed If the period for reply a specified above, the maximum statustry period will appeal and up appeal (s) MONTHS from the mailing date of this communication. If the period for reply a specified above, the maximum statustry period will appeal and the period (s) MONTHS from the mailing date of this communication. If the period for reply a specified above, the maximum statustry period will appeal and the period of t	Office Action Summary	Examiner	Art Unit				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. Show SIX (5) MONTHS from the mailing date of this communication. The six (5) MONTHS from the mailing date of this communication. The part of the reby specified above, the maximum shallows period will apply and ell expects SIX (6) MONTHS from the mailing date of this communication. The part of the reby specified above, the maximum shallows period will apply and ell expects SIX (6) MONTHS from the maining date of this communication. The part of the reby is specified above, the maximum shallows period will apply and ell expects SIX (6) MONTHS from the maining date of this communication. The part of the specific date in the from remaining date of this communication, even if thinky filled, may reduce any searmed patent term adjustment. See 37 CFR 1.704(b). Status 1) Separation is FINAL. 2b) This action is non-final. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s)45 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s)45 is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s)45 is/are rejected. 7) The drawing(s) filed on is/are: a) cocepted or b) objected to by the Examiner. Application Papers 9) The specification is objected to by the Examiner. Application Papers 10) The drawing(s) filed on is/are: a) cocepted or b) objected to by the Examiner. If approved, corrected drawings are required in reply to this Office action. 11) The proposed drawing correction filed on is/are: a) approved b) disapproved by the Examiner. If approved, corrected drawings are required in reply to this Office action. 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (Thomas J Joseph	2174				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. Editedizing of them may be available under be provisions of 37 CPR 1.38(a). In no event, however, may a reply be timely field If this period for reply is pacified above. Its resultment abstracy period will be provided for reply specified above. Its resultment abstracy period will be provided for reply specified above. Its resultment abstracy period will be provided for reply specified above. Its resultment abstracy period will be provided for reply will be decided for reply will. By statute, chase the application to become ABANDONED (39 U.S.C. § 133). Figure 1 in No period for reply is pacified above. Its resultment abstracy period will be membrated too. Provided any vertical period of the communication. Provided any vertical period of the period p							
2a) This action is FINAL. 2b) This action is non-final. 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s) 1-45 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) are subject to the extriction and/or election requirement. Application Papers 9) The specification is objected to by the Examiner. 10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in aboyance. See 37 CFR 1.85(a). 11) The proposed drawing correction filed on is: a) approved b) disapproved by the Examiner. If approved, corrected drawings are required in reply to this Office action. 12) The oath or declaration is objected to by the Examiner. Priority under 35 U.S.C. §§ 119 and 120 13) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No application from the International Bureau (PCT Rule 17.2(a)). *See the attached detailed Office action for a list of the certified copies not received. 14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121. Attachment(s) 10 Notice of References Cited (PTO-892) 11 Interview Summary (PTO-413) Paper No(s) interview Summary (PTO-413) Paper No(s) interview Summary (PTO-152)	A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s) 1-45 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) 1-45 is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s) are subject to restriction and/or election requirement. Application Papers 9) The specification is objected to by the Examiner. 10) The drawing(s) filled on is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in aboyance. See 37 CFR 1.85(a). 11) The proposed drawing correction filed on is: a) approved b) disapproved by the Examiner. If approved, corrected drawings are required in reply to this Office action. 12) The oath or declaration is objected to by the Examiner. Priority under 35 U.S.C. §§ 119 and 120 13) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some or he priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). *See the attached detailed Office action for a list of the certified copies not received. 14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application). a) The translation of the foreign language provisional application has been received. 15) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121. Attachment(s)	1) Responsive to communication(s) filed on 30 J	lanuary 2001 .					
closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s)	2a) This action is FINAL . 2b) ☐ Th	is action is non-final.					
4) Claim(s) 1-45 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) Claim(s) is/are allowed. 6) Claim(s) is/are rejected. 7) Claim(s) is/are rejected. 7) Claim(s) is/are rejected to. 8) Claim(s) are subject to restriction and/or election requirement. Application Papers 9) The specification is objected to by the Examiner. 10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). 11) The proposed drawing correction filed on is: a) opproved b) disapproved by the Examiner. If approved, corrected drawings are required in reply to this Office action. 12) The oath or declaration is objected to by the Examiner. Priority under 35 U.S.C. § 119 and 120 13) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application). a) The translation of the foreign language provisional application has been received. 15) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121. Attachment(s)	closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 2174

DETAILED ACTION

Claim Objections

1. Claims 20, 26, 34, and 35 are objected to because of the following informalities: line 3 of claims 20, 26, 34, and 35 which cite, "... being rendered to to the DPI that ..." should cite, "... being rendered to the DPI that ...". Appropriate correction is required. The Examiner recommends that the Applicant review the entire Application for repeat occurrences of this informality and other potential informalities.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1 – 8, 27, 28, 32, 38, 39, and 42 – 45 are rejected under 35 U.S.C. 102(e) as being anticipated by Isreal (US 6,330,007).

Claim 1:

Art Unit: 2174

Isreal (US 6,330,007) teaches a system adapted to size a user interface (UI) element having at least one component that responds to a sizing input (col. 15, lines 10 – 25). Isreal teaches a sizing module adapted to size a first component in response to the sizing input (col. 15, lines 10 - 25). Isreal teaches an alignment module adapted to align a second component within the sized first component (col. 15, lines 10 - 25).

Claim 2:

Isreal teaches the UI element being themed (fig. 15). Labels used for naming the various windows are also UI themes.

Claim 3:

Isreal teaches the first component being a bitmap and the sizing module being adapted to divide the bitmap into a plurality of grids and adjust margins of at least some of the grids to size at least some of the grids of the bitmap (col. 7, lines 25 – 35).

Claim 4:

Isreal teaches a UI element having at least one component in response to a sizing input (col. 15, lines 10 - 25). Isreal teaches receiving the sizing input (col. 15, lines 10 - 25). Isreal teaches dividing a bitmapped first component into a plurality of grids (col. 7, lines 25 - 35). Isreal teaches adjusting the margins of at least some of the grids to size at least some of the grids of the bitmap in response to the sizing input (col. 14, lines 55 - 67). Isreal teaches aligning a second component within the first sized component (col. 14, lines 55 - 67).

Claim 5:

Isreal teaches the UI element being themed (fig. 15).

Art Unit: 2174

Claim 6:

Isreal teaches software that requires a computer-readable medium storing computer-executable instructions adapted to perform the method of claim 4 (abstract).

Claim 7:

Isreal teaches a GUI that includes a context that a UI element can be rendered to, a method for rendering a UI element having at least one component that is sized in response to sizing input (col. 15, lines 10 - 25). Alignment is used as a method for sizing input in response to a request to size the said input. Isreal teaches receiving the sizing input (col. 15, lines 10 - 25). Isreal teaches dividing a bitmapped first component into a plurality of grids (col. 7, lines 25 - 35). Isreal teaches adjusting margins of at least some of the grids to size at least some of the grids of the bitmap in response to the sizing input (col. 14, lines 55 - 67). Isreal teaches aligning a second component within the sized first component (col. 14, lines 55 - 67). Isreal teaches rendering the UI element to the context (fig. 15).

Claim 8:

Isreal teaches the UI element being themed (fig. 15).

Claim 27:

Isreal teaches a system adapted to produce a UI element having at least one component (col. 15, lines 10 - 25). Isreal teaches a sizing module adapted to choose a second component of the UI element from a library of second components (col. 15, lines 10 - 25). Isreal teaches an alignment module adapted to align the chosen second component within a first component of the UI element (col. 15, lines 10 - 25).

Art Unit: 2174

Claim 28:

1

Isreal teaches the UI element being themed (fig. 15).

Claim 32:

Isreal teaches producing a UI element having at least one component (col. 15, lines 10-25). Isreal teaches choosing a second component of the UI element from a library of second components (col. 15, lines 10-25). Isreal teaches aligning the chosen second component within a first component of the UI element (col. 15, lines 10-25).

Claim 36:

Isreal teaches software that requires a computer-readable medium having computer-executable instructions adapted to perform (abstract).

Claim 38:

Isreal teaches a GUI including a context that a UI element having at least one component can be rendered to, a method for rendering a UI element (col. 15, lines 10 - 25). Isreal teaches choosing a second component of the UI element from the library of second components (col. 15, lines 10 - 25). The list described herein is a type of library. Isreal teaches aligning the chosen second component with a first component of the UI element (col. 15, lines 10 - 25). Isreal teaches rendering the UI element of the context (col. 15, lines 10 - 25).

Claim 39:

Isreal teaches a UI element that is themed (fig. 15).

Claim 42:

Art Unit: 2174

Isreal teaches a system adapted to produce a UI element having at least one component (col. 15, lines 10 - 25). Isreal teaches a sizing a sizing module adapted to choose a second component of the UI element from a library of second components (col. 15, lines 10 - 25). Isreal teaches an alignment module adapted to align the chosen second component within a first component of the UI element (col. 15, lines 10 - 25).

Claim 43:

Isreal teaches a UI element that is themed (fig. 15).

Claim 44:

Isreal teaches a system adapted to produce a UI element having at least one component in response to sizing (col. 15, lines 10 - 25). Isreal teaches a sizing module adapted to choose a second component of the UI element from a library of second components (col. 15, lines 10 - 25). Isreal teaches an alignment module adapted to align the chosen second component within a first component of the UI element (col. 15, lines 10 - 25).

Claim 45:

Isreal teaches a UI element that is themed (fig. 15).

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

⁽b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2174

5. Claims 9, 16, 18, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Higgins (US 5,477,241).

Claim 9:

Higgins teaches adapting to size a bitmapped component of a UI element in response to a sizing input, where the bitmapped component was designed under a particular DPI (col. 4, lines 15-35). Higgins teaches a sizing module adapted to size the bitmapped component in response to the sizing input and based upon a functional relationship between the DPI of the context that the UI element being rendered to and the DPI that the bitmapped component was designed under (col. 4, lines 15-35).

Claim 16:

Higgins teaches a method for sizing a bitmapped component of a UI element in response to a sizing input, where the bitmapped component was designed under a particular DPI (col. 4, lines 15 - 35). Higgins teaches receiving the sizing input (col. 4, lines 15 - 35). Higgins teaches sizing the bitmapped component in response to the sizing input and based upon a functional relationship between the DPI of the context that the UI element being rendered to and the DPI that the bitmapped component was designed under (col. 4, lines 15 - 35).

Claim 18:

Higgins teaches dividing the bitmap into a plurality of grids (col. 4, lines 15 - 35). Higgins teaches adjusting the margins of the grids to adjust the size of the grids based upon the functional relationship between the DPI of the context that the UI element is

Page 8

Art Unit: 2174

rendered to and the DPI that the bitmapped component was designed under (col. 4, lines 15 – 35).

Claim 22:

Higgins teaches a computer system having a graphical user interface including a context that a UI element have a bitmap component being rendered to, a method for rendering the UI element in response to sizing input where the bitmapped component was designed under a particular DPI (col. 4, lines 15 - 35). Higgins teaches receiving sizing input (col. 4, lines 15 - 35). Higgins teaches sizing the bitmapped component in response to the sizing input based upon a functional relationship between the DPI of the context that the UI element is rendered to and the DPI that the bitmapped component it is designed under (col. 4, lines 15 - 35).

Claim Rejections - 35 USC § 103

- 6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 7. Claims 10 15, 17, 19 21, and 23 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Higgins as applied to claims 9, 16, 18, and 22 above, and further in view of Isreal.

Claim 10:

Higgins fails to teach a UI being themed. Isreal teaches the UI element being themed (fig. 15). It would have been obvious to one with ordinary skill in the art at the

Art Unit: 2174

Page 9

time of the invention to combine the UI element being themed taught by Isreal with the bitmaps and sizing disclosed by Higgins. Doing so enables the designing of various windows and other UI elements according to specific purposes.

Claim 11:

Higgins fails to teach the sizing module being adapted to divide the bitmapped component into a plurality of grids and adjusting the size of the grids to size the component. Isreal teaches the sizing module being adapted to divide the bitmapped component into a plurality of grids and adjusting the size of the grids to size the component (col. 14, lines 55 – 67). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine the sizing module being adapted to divide the bitmapped component into a plurality of grids and adjusting the size of the grids to size the component taught by Isreal with the bitmaps and sizing disclosed by Higgins. Doing so provides a method for sizing, aligning and positioning output in order to provide a quality presentation.

Claim 12:

Isreal teaches sizing module being adapted to adjust margins of the grids to adjust the size of the grids (col. 14, lines 55 – 67).

Claim 13:

Higgins teaches sizing module being adapted to adjust margins of the grids based upon the functional relationship between the DPI between DPI of the context that the UI element is being rendered to and the DPI that the bitmapped component was designed under (col. 4, lines 15 - 35).

Art Unit: 2174

Claim 14:

Isreal teaches sizing modules being adapted to adjust the margins of the grids such that the size of each of the grid share adjusted to both the horizontal and vertical directions (col. 14, lines 55 - 67).

Claim 15:

Higgins teaches the functional relationship between the DPI of the context that the UI element being rendered to and the DPI that the bitmapped component was designed under the ratio of the DPI of the context that the UI element is rendered to the DPI that the bitmapped component was designed under (col. 4, lines 15 – 35).

Claim 17:

Higgins fails to teach a UI being themed. Isreal teaches the UI element being themed (fig. 15). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine the UI element being themed taught by Isreal with the bitmaps and sizing disclosed by Higgins. Doing so enables the designing of various windows and other UI elements according to specific purposes.

Claim 19:

Higgins fails to teach adjusting the margins of the grids such that the size of each of the grids is adjusted in both vertical and horizontal directions. Isreal teaches adjusting the margins of the grids such that the size of each of the grids is adjusted in both vertical and horizontal directions (col. 14, lines 55 - 67). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine adjusting the margins of the grids such that the size of each of the grids being adjusted

Art Unit: 2174

in both vertical and horizontal directions taught by Isreal with the bitmaps and sizing disclosed by Higgins. Doing so enables allows for the producing of output within the parameter of its corresponding output peripheral.

Claim 20:

Higgins teaches adjusting the margins of the grids based upon the ratio of the DPI of the context that the UI element is rendered to the DPI that the bitmapped component was designed under (col. 4, lines 15 – 35).

Claim 21:

Higgins teaches software that requires a computer-readable medium storing computer-executable instructions adapted to perform the method of claim 20 (abstract).

Claim 23:

Higgins fails to teach a UI being themed. Isreal teaches the UI element being themed (fig. 15). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine the UI element being themed taught by Isreal with the bitmaps and sizing disclosed by Higgins. Doing so enables the designing of various windows and other UI elements according to specific purposes.

Claim 24:

Higgins teaches adjusting the margins of the grids to adjust the size of the grids based upon the functional relationship between the DPI of the context that the UI element is rendered to and the DPI that the bitmapped component was designed under (col. 4, lines 15 - 35).

Page 12

Application/Control Number: 09/772,606

Art Unit: 2174

Higgins fails to teach dividing the bitmap into a plurality of grids. Isreal teaches dividing the bitmap into a plurality of grids (col. 14, lines 55 – 67). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine dividing the bitmap into a plurality of grids taught by Isreal with the bitmaps and sizing disclosed by Higgins. Doing so enables allows for the producing of output within the parameter of its corresponding output peripheral.

Claim 25:

Isreal teaches adjusting the margins of the grids such that the size of each of the grids is adjusted in both vertical and horizontal directions (col. 14, lines 55 - 67).

Claim 26:

Higgins et al (US 5,477,241) teaches adjusting the margins of the grids based upon the ratio of the DPI of the context that the UI element is rendered to the DPI that the bitmapped component was designed under (col. 4, lines 15 – 35).

8. Claims 29 – 31, 33 – 35, 37, 40, and 41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Isreal as applied to claims 27, 32, and 38 above, and further in view of Higgins.

Claim 29:

Isreal fails to teach entries within the library being designed under a particular DPI, the sizing module adapted to choose the second component from the library based upon a functional relationship between the DPI of the context that the UI element is being rendered to and the DPI that the entries within the library were designed under. Higgins et al (US 5,477,241) teaches entries within the library being designed under a

Art Unit: 2174

particular DPI, the sizing module adapted to choose the second component from the library based upon a functional relationship between the DPI of the context that the UI element is being rendered to and the DPI that the entries within the library were designed under (col. 4, lines 1 – 15). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine the entries within the library being designed under a particular DPI, the sizing module adapted to choose the second component from the library based upon a functional relationship between the DPI of the context that the UI element are rendered to with DPI that the entries within the library were designed under taught by Higgins with the system adapted to produce a UI element having at least one component disclosed by Isreal. Doing so enables adapting output to the parameters of various output peripherals.

Claim 30:

Higgins teaches the sizing module being adapted to choose the second component from the library based upon the ratio of the DPI of the context that the UI element is being rendered to the DPI that the entries within the library were designed under (col. 4, lines 1-15)

Claim 31:

Higgins teaches the sizing module being further adapted to refine the size of the chosen second component based upon the ratio of the DPI of the context that the UI element being rendered to the DPI that the entries within the library being designed under (col. 4, lines 1-15).

Claim 33:

Art Unit: 2174

Isreal fails to teach entries within the library being designed under a particular DPI along with choosing the second component from the library based upon a functional relationship between the DPI of the context that the UI element is rendered to and the DPI that the entries within the library were designed under. Higgins teaches entries within the library being designed under a particular DPI (col. 4, lines 1 – 15). Higgins teaches choosing the second component from the library based upon a functional relationship between the DPI of the context that the UI element is rendered to and the DPI that the entries within the library were designed under (col. 4, lines 1 - 15). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine the entries within the library being designed under a particular DPI, the sizing module adapted to choose the second component from the library based upon a functional relationship between the DPI of the context that the UI element are rendered to with DPI that the entries within the library were designed under taught by Higgins with the system adapted to produce a UI element having at least one component disclosed by Isreal. Doing so enables adapting output to the parameters of various output peripherals.

Claim 34:

Higgins teaches choosing the second component from the library based upon the ratio of the DPI of the element is being rendered to the DPI that the entries within the library were designed under (col. 4, lines 1 - 15).

Claim 35:

Page 14

Art Unit: 2174

Higgins teaches refining the size of the chosen second component based upon the ratio of the DPI of the context that the UI element is rendered to the DPI that the entries within the library were designed under (col. 4, lines 1 - 15).

Claim 37:

Isreal teaches software that requires a computer-readable medium having computer-executable instructions adapted to perform (abstract).

Claim 40:

Isreal fails to teach entries within the library being designed under a particular DPI along with choosing the second component from the library based upon a functional relationship between the DPI of the context that the UI element being rendered to the DPI that the entries within the library were designed under. Higgins teaches entries within the library being designed under a particular DPI (col. 4, lines 1 – 15). Higgins teaches choosing the second component from the library based upon a functional relationship between the DPI of the context that the UI element being rendered to the DPI that the entries within the library were designed under (col. 4, lines 1 – 15). It would have been obvious to one with ordinary skill in the art at the time of the invention to combine the entries within the library being designed under a particular DPI along with choosing the second component from the library based upon a functional relationship between the DPI of the context that the UI element being rendered to the DPI that the entries within the library were designed under taught by Higgins with the system adapted to produce a UI element having at least one component disclosed by Isreal. Doing so enables adapting output to the parameters of various output peripherals.

Page 16

Claim 41:

Higgins et al (US 5,477,241) teaches choosing the second component from the library based upon the ratio of the DPI of the context that the UI element being rendered to the DPI that the entries within the library were designed under (col. 4, lines 1 - 15).

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J Joseph whose telephone number is 703-305-3917. The examiner can normally be reached Mondays through Fridays from 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on 703-308-0640. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-3900.
